

Product or Service Sponsors

Product or Service Sponsors are essential to our race team's growth and can allow us to increase our sponsor's returns without increasing their investment. These partnerships would consist of investing your actual products or services in us in exchange for promotional services from us. We welcome these and can build a custom sponsor package WITH you to meet your promotional needs. Research and Development opportunities are welcome as well.

Some examples (but not limited to):

- Engine Builders that are wanting to get into racing
- Auto parts that we may need
- Lubricants
- Tires
- Sheet metal
- Printing services for our autograph cards, post cards, business cards, special hand outs
- Promotional items – t-shirts, misc items for events, checker flags etc.
- Bottle water, drinks at the track
- Golf cart for race events
- Graphic design services/decal service for racecar design

ALL SPONSOR PACKAGES HAVE GREAT TAX BENEFITS AS WELL!
